Dear Mr. Shajary:

Re: Permit Amendment Concerning Waste Disposal Site, Sigurd Quarry, Georgia Pacific, M/041/009, Sevier County, Utah

The Division would like to complete our approval of your waste disposal site, located on your Western Claims #17 and #18. The permitting process was initiated last April of 1990. A joint site inspection was made July 25, 1990, involving your staff, Division of Oil, Gas and Mining staff, and BLM staff.

During the site visit, several concerns were discussed regarding the dump and verbal commitments made by your staff to address them. These concerns were later addressed in a letter to the BLM dated July 25, 1990 (attached).

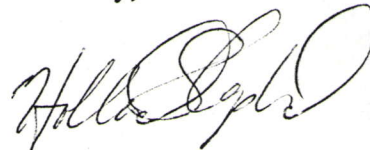

We later wrote a letter, dated October 1, 1990, to the Utah Bureau of Solid and Hazardous Wastes (BSHW), asking them for their approval of the Western Claims disposal site, and another disposal site located in Section 12, T22S, R1W. They indicated in a letter dated October 15, 1990, that Georgia Pacific had notified them concerning the sites, but they had not been able to act on the permits, by that date.

The Division is ready to approve the Western Claim site amendment, provided Georgia Pacific formally commits to the reclamation specifications discussed earlier and commit to the dumping of only wallboard waste material, and the removal of all non-wallboard waste materials existing on the site, or which may be dumped inadvertently, on the site, in the future. Please advise us, also, if you have received any further correspondence from the BSHW or the BLM regarding this dump site approval.
